

What is Winnipeg's Forest Watch?

What is Trees Winnipeg's Forest Watch Program?

The Winnipeg Forest Watch Program is our campaign to monitor and raise awareness of invasive species, like emerald ash borer (EAB).

The Winnipeg Forest Watch group will give Winnipeggers the opportunity to have an active role in protecting our urban canopy. Volunteers will complete two surveys during the summer months. The first survey will include looking for trees that are stressed or in decline, while the second survey will be focused on locating trees that could be candidates for the City of Winnipeg's ash injection program. The data collected in each survey will be given to the City of Winnipeg to aid in the detection and management of EAB in our communities.

Events to attend:

- * Welcome Workshop: Training for survey 1
- * Survey 1: Identifying Ash Trees affected by EAB
- * Welcome back Workshop: Training for survey 2
- * Survey 2: looking at tree candidates for the city injection program
- * Volunteer Appreciation Workshop: data updates and food

***dates and locations will be sent out by email to volunteers and posted on our website**

**Please Mail or Email Volunteer forms to Trees
Winnipeg**
